## Corporate Profile

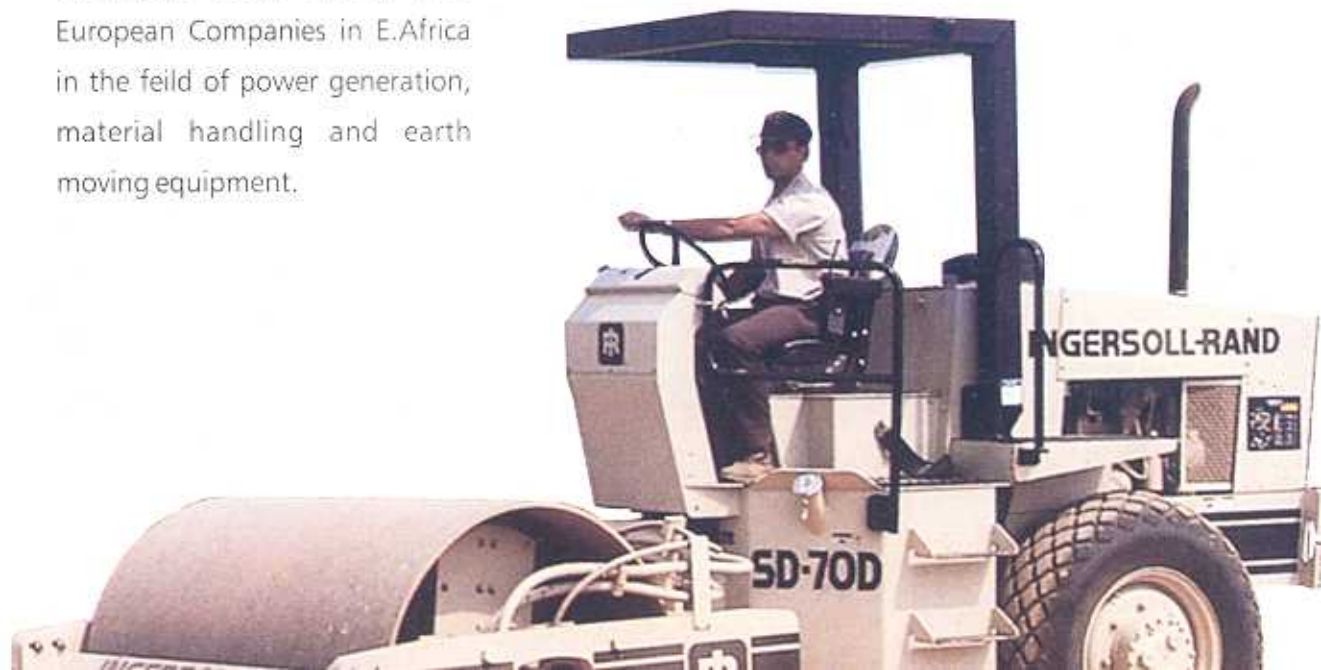

Blackwood Hodge (K.) Ltd. have over 50 years of experience in the East African market. The company was established in 1949 in Nairobi, Kenya and have branch offices and workshops in Mombasa and Lokichogio.

The company has extensive workshop facilities at their headquarters in Nairobi and represent many British and European Companies in E.Africa in the field of power generation, material handling and earth moving equipment.

## Service

The focus of Blackwood Hodge's activities is not only in selling the best equipment at competitive prices, our main aim is to ensure that we provide a Total Service and Total Maintenance Package that is second to none. Service is, and always has been the key to the success of the company. High service levels are achieved by regular and comprehensive staff training and investment in this area is continuous.

## Accreditations

During the past 50 years, the company has been involved in many major projects in the region working with clients both as suppliers and as consultants.

Such associations have involved working closely with many of the following; the manufacturing sector, civil and construction industry, government ministries and agencies, port and airport authorities, hotel groups, the mining and quarrying sector, mobile telephone suppliers, horticulture and agriculture. There are many more.

Our experience is extensive and our customer base encompasses all aspects of commerce and industry. Our knowledge of working in the E. Africa region is at the forefront of our particular industry.

We are proud to have been part of the regions growth during the last 50 years.

## Technical Back Up and Service

Blackwood Hodge is fully equipped to offer customers a Total Package when supplying equipment in terms of: Supply, Installation, Commissioning, Staff Training, Maintenance Schedule, Spare Parts, Full Service Maintenance Contacts.

The company has a dedicated staff of 50 personnel backed up by a fleet of service vehicles.
