Mogadishu Airport Snapshot

Aerial Image of Mogadishu Airport (Google Satellite Imagery)

The Mogadishu International Airport (MIA), also known as the 'Aden-Adde International Airport' is the international airport for Mogadishu, the capital of Somalia. The Somali civil war has caused continual disruptions to the airport's operations in recent years.

Runway

- The Mogadishu Airport has one runway (Runway Length: Approximately 3.1 km).
- It is recommended to avoid the northern 500 meters due to security reasons.
- Aircraft should fly in from the sea-side.

Immigration

- UNLP and Diplomatic Passports – Exempted from fees at immigration.
- National Passports – 50 USD Visa payment is required.
- Immigration Form to be filled in, available on UNHAS flights.

Ground Handling

- SKA Air and Logistics operates all ground handling at the Airport.

Conference Facilities

- A meeting room is available at the VIP lounge on request.

Fuel

- Sole provider: SUPREME
Phone: +252 6998 38967

Hours of Operation

- The airport operates from 0600 to 1800 hrs.

Equipment Available

- 5 mt forklift

- Air Starter
- General cargo and baggage handling equipment for small and large aircraft
- Marshalling.
- 15,000 mt warehouse (**only for transit cargo**).

Airport facilities and instructions

- There is no navigation or landing system, only an air band radio.
- Large cargo flights (DC-8 size), are recommended to land before noon so truck-loading may finish quickly, and the trucks and aircraft may depart prior to the end of daily airport operations (1800hrs)
- No cargo trucks should stay at the airport after 1800 hrs or overnight.
